- Fully compliant
- Mobile compatible
- On demand recording
- Easy setup of agents and supervisors
- Audit trail with log of who has played, downloaded or emailed calls
- Live call statistics showing number of calls recorded total, daily and weekly

### WHAT CAN YOU EXPECT FROM ATMOS FOUNDATION

Whether you have one location with five extensions or a nationwide infrastructure with multiple branches and process millions of calls, our compliant call logger is the solution for you!

All calls are 100% compliant and are individually secured and encrypted at source, with a rotating encryption methodology that is unique and specific to each individual call. Calls can be recorded with any brand of PBX, trunk or VoIP extension system.

All calls are stored on your Atmos hardware on site, and can be backed up to CallCabinet's cloud servers if required. Our logger also supports multiple time zones, multiple recording locations and the ability to search, sort and locate your calls within seconds.

# Call us today to take advantage of on-premise enterprise-class call recording today.

We look forward to hearing for you!
