SOLUTION FOR

broadsoft

The **ONLY** true cloud-based, multi-tenant, SaaS, compliant call recording solution for Broadsoft.

Your business relies on the ease of use of the Broadsoft platform for its telephony requirements, but are your Broadsoft calls recorded, secure, easy to access and compliant?

CallCabinet has the solution for you!

- Fully compliant call recording
- Fully integrated with Broadsoft
- Software-only call recording and management
- Multi-tenant carrier solutions
- No-cost dynamic maintenance

Only CallCabinet's solutions for Broadsoft can offer you the compliant call recording that your business requires.

CallCabinet's solutions seamlessly integrate into Broadsoft's solutions. Combining these two solutions creates an easily searched, self-managing audio archive, complete with audit trail for all industries that require a compliant call recording solution in high, medium and low call volume environments.
